

Pas Reform UPS Uninterruptible Power Supply

To provide emergency power in the event of
mains power failure

Royal Pas Reform
Integrated Hatchery Solutions

UPS

Benefits

Provides single-phase emergency power for up to 30 minutes in the event of mains power failure, while also preventing power surges to the controller. Connected to a UPS battery (also available from Pas Reform) or a central UPS hatchery system. Models provide enough battery backup power to work through short length power shortage or failures. Safeguards equipment from damaging surges and spikes that travel along utility and data lines.

How it works

- Keeps critical electronic equipment running during power outage or in the event of dangerous fluctuations, to protect your work and save your data
- When the UPS system detects a power failure or change in distribution, the battery inside the UPS takes over the power supply to critical components in the hatchery
- Periodic self-testing identifies when the battery needs to be replaced, to ensure that the unit is ready whenever you need it

Responsive power backup in the event of a mains failure

Technical Specifications

Model	BK 350	BK 500	BK 650
Battery size	> 12 Volt, 7Ah	> 12 Volt, 7Ah	> 12 Volt, 9 Ah
Output capacity	> 350VA / 210W	> 500VA / 300W	> 650VA / 400W
Unit weight	> 6.32 Kg	> 6.32 Kg	> 6.03 Kg
Utility output voltage / frequency	> 230V / 47-63Hz		
Battery output voltage / frequency	> 230V +/- 8%, 50 or 60 Hz +/- 1 Hz		
Output connections	> 4 IEC 320 C13 outlets		
Unit dimensions (HxWxD)	> 165 x 91 x 284 mm		
Battery Type	> Maintenance-free, sealed lead-acid battery, leak proof
